PATENT WEATHER GUARDS. PATENT WEATHER GUARDS.

A. HALL respectfully informs the citizens of Washington and Georgetown, that he is now prepared to execute all orders, with promptness and dispatch, of those who may be annoyed by the wind and rain driving under their doors, thereby destroying carpets, ruining furniture, and rotting the stills and floor, so that, in a short time, it will cost throe times the amount to repair them than that of a preventative in the first instance. The merits of these weather-protecting instruments need only be seen to be appreciated. Out of a large list of persons for whom I have put them on, I beg leave to refer to the following gentlemen:

gentlemen:

Hon. W. W. Seaton, ex-Mayor, Washington.
Captain Mordecai, U. S. Arsenal and U. S. Observatory.

Hon. B. B. French, Capitol Hill.

Ice Creams, Water Ices, &c.—Patented September 19, 1848.

THE distinguising merits of this Apparatus are—

Ist. The astonishing rapidity of the process, surpassing belief—hence the name.

2d. The Cream during the progress of freezing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.

and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.

3d. It does not require a tenth part of the labor that the common Freezer does.

4th. It does its work better, producing a better article, in every respect, than by any other mode.

5th. There is a considerable saving in ice, as the tub needs no replenishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the public."

cheerfully recommend it to the public."

H. F. JACKSON,

Eutaw House, Baltimore, May 15, 1848.

"This is to certify, that during the summer of 1848, I used one of Austin's Patent Ice Cream Freezers of the largest size, (16 gallons,) making from 10 to 50 gallons per day during the season; and so far as regards expedition and power, I consider it decidedly the best freezer now in use, as I have had with it no difficulty in making ten gallons of superior quality Ice Cream from five of plain Cream, in thirty minutes from the time I commenced working it.

Newark Academy.

Newark Academy.

By a late re-organization of this department of Delaware Collega, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, heretofore merged in the College, and of course subjected to all the evils which have been found to attend the smalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fix tures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-rooms and dornuitories has been chosen with peculiar reference to comfort and convenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete; giving to Newark Academy facilities for private study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not generally obtained at institutions of this kind. Those who wish lo pursue some particular branch which falls more properly within the College course, may be admitted to recite in any of the College course, may be admitted to recite in any of the College course, may be admitted to recite in any of the College course, may be admitted to recite in any of the College course, may be admitted to recite in any of the College course, may be admitted to recite in any of the College course, may be admitted to recite in any of the College as can be profitably enjoyed by academical the colleg

the College as can be promisely engine by construents.

The charge for Boarding, Washing, Fuel, Light, &c., with tuition in the English, Latin, and Greek, is asymptocliars for the Summer Session, and seventy-fire for the Winter Session. The only extras are one dollar per sesion for incidental expenses, and a fee of gight dollars for Modern Languages, and a fee of five dollars for Praying, from those who enter these classes. The sessions and vacations of the Preparatory Department are the same as those of the College.

WILMINGTON BOARDING SCHOOL
FOR BOYS.—This institution is situated in
one of the healthlest parts of the city of Wilmington, pintirely beyond the sottled puritions of the town. The uniform healthfulness of the location may be inferred from
the fact that, since the camblishment of the school, about
twenty eight year.

form healthfulness of the location may be interred from
the fact that, since the catabilishment of the ecosed, about
twenty eight years, very few cases of serious indisposition
have occurred among the pupils, and not a single death
either here, or from diseases contracted while heate,
The course of instruction includes, besides the ordinary
English branches, Natural Philosophy, Chemistry, Physiology, History, Khetoric, the various branches of Mathematics, and the Lafin, Greek, and French Languages. Particular strention is paid to the higher Mathematics and
their application to Mechanics and Engineering; the latter
and Surveying are taught, practically by field operations,
with the use of appropriate instruments. Lectures on
Natural Philosophy and Chemistry, in which all the important Principles are illustrated by experiments, are
regularly delivered before the students.

As the object is to make the instruction as thorough
and practical as possible, no expense has been spared in
proviking suitable appearatus. It is believed that, in this
respect, the Institution will compare favorably with any
similar one in the country. A carefully selected library,
of more than one thousand volumes, containing works on
the various branches of Librature and Science, furnishes
ample reading matter, while a Laboratory, fully supplied
with apparatus and tests, contains all that is necessary for
practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day
(Monday) of the Ninth month, (September,) and is divided
into four quarters of eleven weeks each, leaving a vacation
of two months, from about the middle of the Sevent

THE TESTIMONY OF ONE OF OUR LAWYERS.—
In JAS. L. HAMILTON.—DEAR SIR: Although the number and respectability of the testimonials of which you are already in possession, as to the efficacy of your Medicine, "THE GHEAT VA. REMEDY," in the diseases which it is designed to cure, are sufficient, in my opinion, to establish its reputation, and secure for it such patronage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its une, and the salutary effects which I have derived from its maployment in the cases of several friends, to whom I had recommended it, constrain me to contribute, for such use as you may think proper to make of it; this formal acknowledgment of its sanitary virtues. My own case was Dyspepsis of long duration, and very aggrawated in its character, manifested by an almost total destruction of the digestive functions, great debility, ner ovusness, emaciation, and inpaired specitic, with pain, and a burning sensation in the left side of the chest, palpitation of the heart, vertige and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely relieved. The cases of my friends, in which your Medicine was taken, were Dyspepsis, Chronic Headache, and Sore Throat, in all of which it proved efficacious, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant to the taste as a cordial, and in my experience cerrects all derangement of the stomach, restores the wasted or enfeebled energies of the digestive organs, and imparts strength and reanimation to the whole system.

Very respectfully, yours, &c.,

VALUABLE LAW BOOKS. W E invite the attention of the Profession, and others desiring Law Books, to our very extensive stock, which, we believe, contains the best assortment of American Publications in the United States. Particular attention given to furnishing or completing Libraries for the Departments, Associations, and States.

Orders by mail promptly and carefully executed.

English Common Law Reports,

English Common Law Reports,

88 Yolumes, with a complete Index to the first 47 Yolumes.

Since volume 39 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, instead of, as formerly, two English in one American volume.

Price—For the first 43 vols., \$3 50 per vol.

For the succeeding, \$5 50 per vol.

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared
with the rates of some of the principal American Reports,
of even inferior meril, recommends them particularly to
the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the Eng-

lish Common Law Reports.

By Hon. Groens Sharswood and Grongs W. Biddle, Esqrs. 1 vol. 8vo.—25 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., sufficient, probably, for the Elucidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made easily and instantly accessible, these Reports will be found so comprehensive, convenient, and cheap, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

New English Exchequer Reports—Pleas and Equity.

To be reprinted in full, in best style, with American Notes, by J. I. CLARK HARK and H. B. WALLACE, Esqrs, at \$2.50 per vol., bound.
Including McCleiland and Younge, Younge and Jervis, Crompton and Jervis, Crompton and Meeson, Crompton, Meeson and Roscoe, Meeson and Younge and Collyer—in Equity.

Meeson and Welsby, in 19 vols., Welsby, Hurlstone and Gordon, vol. 1, published and ready for delivery.

We take pleasure in referring to the accompanying letters, explanatory of the character of these Reports, and their value to the Profession in this country:

CAMBRIDGE, January 25, 1845.

Mesers. T. & J. W. Johnson:

Gentlemen—In reply to your letter, I can with great
sincerity say, that I entertain a very high opinion of the
recent Exchequer Reports. In my judgment they are not
excelled by any cotemporaneous Reports, in learning,
ability, or general utility and interest. The cases decided
are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deem
of more importance or value for a Professional Library.

JOSEPH STORY.

Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours, SIMON GREENLEAP. CAMBRIDGE, January 25, 1845.

The cheapest Law Periodical in the United States.

It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realize the expectations of those who have enjoyed Smith's Mercautile Law, Touchstone, Broom's Legal Maxims, Archboid's Neil Prius, Archboid's Landlord and Tenant, Crabb on Real Proporty, Smith on Contracts. The high reputation which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been presented to the Profession, is the best evidence we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character.

REAL ESTATE IN VIRGINIA FOR SALE.

REAL ESTATE IN VIRGINIA FOR SALE.

THE subscriber has not yet disposed of his real catate in Prince William county, Yirginia. He is still desirous of sellings, and will do so on accommodating terms. It consists, first, of 947 acres of land, in from two and a half to four miles of Brentsville, the county town, fourteen miles of Occoquan, thirty miles of Alexandria, and from four to five miles of the Oranga and Alexandria Railroad, which will be completed to Brentsville this year. This land is well adapted to the growth of wheat corn, yee, oats, and grass. It is a mixture of the red and grey soil, and admirably adapted to improvement by the use of clover, plastor, guano, &c. It is beavily timbered, and finely watered, having lasting springs of the purest water. It is capable of being divided into five or six good sized farms, and with tolerable buildings and small or chards on four of them. I will soil it all in a body to a company, or will divide it to sait purchaser, at prices ranging, according to quality, at from \$2 to \$3 per acre. I will only require one-fourth of the purchase money in hand, and the balance I will divide in three annual payments, to bear interest from the date of sale, to be scenned on the property. Land is rapidly rising in value in the neighborhood, and I offer great inducements new, as I wish to turn my attention to other pursuits.

Secondly. A square of buildings in the town of Brentsville, suitable for a carriage-maker, wheelwright, or black-mith, with two dwelling-houses, kitchens, black-mith, carriage, and wheelwright shops, and other necessary buildings. \$1000 is new my price for this property—on the same terms as the land. It is within a mile and three quarters of the railroad.

Thirdly. Nine and a quarter acres of land on the turn-pike, just above Buckland, on which are a good dwelling-house, a large wheelwright shops, kitchen, stable, dairy, and smoke-house. It would make a good atvern stand, and the shop a good stable. For this property i will take \$500—on the same terms.

FURNISHING MAIL LOCKS & KEYS.
POST OFFICE DEPARTMENT,
March 14, 1851.

T being desirable to substitute locks and keys of som other kind for those now in use for the mail service of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for fur-

next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an additional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six menths before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, viz: durability, uniformity, lightness, and strength. For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adapted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into: afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patentes will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department, if the Post Office Department.

The kind of lock adopted must be patented, and the patentes will be required, on entering

besides a resort to the penal remedy hereinafter mentioned, to annul said contract, and to contract anew with
any other party or parties as he may see fit, for furnishing
similar locks and keys.

In deciding upon the proposals and specimens offered,
the Postmaster General may deem it expedient to select
for the through mails the lock of one bidder, and for the
way mails that of another. He reserves, therefore, the
right of contracting with different individuals is such
different kinds of locks as he may select, and also the
right to reject all the specimens and proposals, if he shall
deem that course for the interest of the Department. The
party or parties contracting will be required to give bond,
with ample security, in the sum of thirty thousand dollars, for a faithful performance of the contract. The contract is to contain provisions for the due and proper inspection of the locks and keys, and also for guarding
against their passing into improper hands; the terms of
these provisions to be arranged between the Department
and the successful bidder, if a bid should be accepted.
No application will be considered if not accompanied
with satisfactory evidence of the trustworthy character of
the bidder, and of his ability to fulfil the contract.

Dear Sir: I wish to express to you the gratification if derived on receiving the July number of the Merchants' Magazine and Commercial Review, from Flewing your portrait in the beginning, and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to our information and amusement, we are naturally desirous to possess all the knowledge of them, of their appearance, of the feelures of their countenance, and of the character and habits of their mind, which we can acquire. You have his educated your numerous readers (at least you have nised your numerous readers (at least you have me, in some degree; satisfice the degire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no hesitation in expressing my humble opinion that it is eminently entitled to the public regard and support. It collects and arranges, in good order, a large amount of valuable statistical and other information, highly useful not only to the merchant, but to the stateman, to the cultivator of the earth, to the manufacturer, to the mariner; in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally petrolized.

Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant.

COLD SPRING WATER CURE.

COLD SPRING WATER CURE.

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and nurseries of the Messrs. Hodges & Bryants; and the scenery in all directions is meurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glange the broad expanse of Lake Eric, the Niagara flowing majestically towards the Falls, extensive forests, and the Queen City of the Lakes, "with its moving panorams of steamboats and ceaseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently creeted at a cest of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently capacious to accommodate seventy-five patients.

Connected with the establishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healthful gymnastic excertises.

MEDICAL DEPARTMENT.

MEDICAL DEPARTMENT.

The institution is under the general supervision of S. M. Davis, M. D., Professor of the Theory and Practice of Medicine in Central Medical College, and Geo. W. Davis, M. D., formerly of Dansville, N. Y., the resident physician, and is permanently associated with the before mentioned gentleman as counsel, and associate of the medical board of control. And the friends of the establishment doesn it a matter of felicitation that the services of Miss Mary M. Taylor, a lady of high medical stitaluments, who has attended two courses of lectures in the Control Medical College, have been secured, and that female patients can at any time avail themselves of her invaluable sid and counsel.

The steward's department is under the control of a gentleman eminently qualified for that position; and unwested pains will be taken to have every thing appertaining to the establishment arranged on a plan, and conducted in a way, to ensure the counfort, and promote the health and happiness of all who may wish to avail themselves of its benedits. Baths of all descriptions, adapted to the cure of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

A return from a side and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and curative agent, is a practical substitution of a simple and remarkably emecious mode of curing the sick; for that system of drugging, depleting, and cauterizing, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the early discoverers and promulgators of the great truths upon which the system is founded, and renders verbal communications unnecessary. It is desured sufficient to say, that the "Cold Spring Water Cure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and desirableness of fla arrangements. The institution is now open for the recaption of patients, and in full operation.
